Hyunsang Cho

AI Product & Experience Executive

hi@raymind.ai raymind.ai hyunsangcho.com

AI-first product and experience executive with 20+ years of international leadership across the UK, Korea, and Saudi Arabia. Built and scaled design and product organizations for enterprise AI platforms, spatial computing initiatives, and global digital ecosystems. Specialized in operationalizing AI across product strategy, multimodal experience design, and cross-functional workflows.

WHY THIS MATTERS NOW

Every company is about to become an AI company. Most don't have anyone who's actually shipped AI products, built the teams, defined the governance, and operated at national scale. I've done all four — across three countries, in both enterprise and consumer, and I'm still building.

EXPERIENCE

2025 — Present
Seoul / Remote

Raymind.AI

Founder

Independent AI product studio. Not consulting, not advising. Shipping real products: consumer apps, developer tools, AI engines. Multiple products launched and in market.

Apr 2025 — Present
Riyadh, KSA

Humain

AI Product & Experience Lead

Built and scaled the product and experience function for Humain OS — Saudi Arabia's flagship AI initiative. Defined platform vision, enterprise governance, and operating models from scratch.

- Defined platform-level product vision across enterprise AI initiatives
- Established governance and review frameworks ensuring scalability and consistency
- Shaped multimodal AI expansion including wearable and ambient interaction models
- Embedded AI-assisted workflows across research, design, and documentation
- Structured cross-functional operating cadence across product, engineering, and leadership

Sep 2021 — Aug 2024
Seoul, Korea

Devsisters

Group Director

Led 0-to-1 development of a spatial computing product on CookieRun IP. Built the team, secured the Meta partnership, shipped to Quest Store.

- Built spatial computing capability and product pipeline within a non-XR-native organization
- Secured strategic platform partnership with Meta, full lifecycle launch to Quest Store
- Directed cross-functional teams across product, engineering, art, and marketing
- Delivered production-ready immersive experience featured in platform promotions

Oct 2018 — Apr 2021
London, UK

Kakao IX UK

Regional Director

Established and led Kakao's first European subsidiary from zero. Drove international expansion for KakaoTalk and Kakao Friends IP across Europe.

- Built European operational foundation and localization strategy
- Launched licensing and retail partnerships across key European markets
- Forged strategic alliance with IMG to expand IP footprint internationally
- Represented the organization at major global trade events and enterprise negotiations

Apr 2017 — Oct 2018
Dhahran, KSA

Saudi Aramco

UX Lead

Defined enterprise UX standards adopted across Aramco's entire digital ecosystem ahead of the world's largest IPO (2019).

- Defined enterprise UX standards across corporate digital ecosystem
- Delivered immersive VR applications supporting industrial education and communication
- Designed digital infrastructure supporting national policy shifts
- Contributed to corporate digital modernization during IPO preparation phase

Jun 2015 — Feb 2017
London, UK

AKQA

Senior UX Architect

Led strategic UX programs for Nike (NRC, NTC), Volvo (Global Web), Barclays (Mortgage), and Virgin Atlantic (Online Booking). Delivered AI-powered recommendation experiences and data-driven personalization systems.

Sep 2013 — Jun 2015
London, UK

Razorfish

Senior UX Architect

Led UX delivery across multi-market digital programs for financial and consumer brands. Managed UX teams and cross-functional collaboration at enterprise scale.
